

NEW YORK PROJECT SPECIFIC GENERAL LIABILITY PROGRAM

New York construction projects have traditionally been one of the most challenging and expensive risks to place in the construction insurance marketplace. With so few choices of primary and lead excess markets, it was time to take a different approach to bring in new and better capacity. After two years of development, we are pleased to introduce **Labor Guard**.

The first program of its kind, Labor Guard offers a full risk management suite of services designed to help protect owners, construction managers and general contractors from the adverse effects of Labor Law on New York construction projects. Labor Guard combines loss control, risk management reviews, contract reviews and policy reviews, all while providing one of the broadest GL and Excess liability forms in New York – all in one combined package.

This exclusive program is only offered by RT Specialty Construction Practice. Labor Guard is a game changer in the New York construction space.
