

HEALTHCARE INDUSTRY SOLUTIONS: MANAGING RISK IN A DYNAMIC WORLD.

The healthcare industry is ever changing – and so are its providers' risk management needs. At Cook Maran, we leverage decades of experience to provide you with the expert advice and guidance you need to manage these risks today and for years to come. From single-location medical offices to large hospitals, our professionals tailor risk management strategies for practices of virtually all specialties, shapes and sizes. We welcome the opportunity to do the same for yours.

Comprehensive Solutions

Your custom insurance program addresses all facets of your practice including business concerns such as workers compensation, network security and employment practices liability as well as those specific to the healthcare industry such as medical malpractice and regulatory coverage.

Superior Client Services

In this rapidly changing healthcare environment, it is imperative that your insurance broker provide prompt service and advice to your staff. With Cook Maran, that's exactly what you'll find. Our team acts as an extension of yours, assisting your business office as needed – when they need it.

Streamlining Credentialing

Our experienced team helps simplify the credentialing process during onboarding, providing the necessary coverage and claims histories, as well as the appropriate certificates of insurance, and working directly with the healthcare system or insurance company on your behalf.

Proactive Claims Management

We not only manage the claims process and negotiate with your carrier when needed, we also proactively review your claims throughout the year to help lower your premiums and workers comp experience modification rating.

Strong Carrier Relationships

One of the nation's top insurance brokers, we leverage our size, strength and long-standing relationships with major insurance carriers to ensure you receive the best coverage at the lowest cost.

Loss Control Strategies

Our knowledgeable specialists review your health and safety programs, risk management controls and safe work practices. Our goal: Reduce your future losses by identifying potential risks and initiating or improving preventative practices and programs.

CAPTIVE INSURANCE: IMPROVING RISK MANAGEMENT AND THE BOTTOM LINE.

When it comes to captive insurance, one size simply doesn't fit all. That's why at Cook Maran, we take a comprehensive and independent approach to captive creation, providing you with the best possible solution that will enable you to better control your specific risk – as well as insurance costs – for the best possible outcome.

Custom Solutions

We're strategically positioned to provide our clients with the best opportunities to control insurance costs through the creation of various types of captives. We stay independent throughout the process, which enables us to evaluate the best captive placement and provide suggestions based on your needs – not our lack of options.

Long-term Thinking

We work with each client throughout the entire captive lifecycle from feasibility to the exit strategy. It starts with determining your goals, as well as understanding your business and industry, risk tolerance and financial needs. Our goal is to implement the best strategy for years to come, not a quick fix.

Expansive Capabilities

At Cook Maran, we have the capabilities and expertise to provide you with creative solutions for just about any type of captive insurance company, including heterogeneous and homogenous groups, single parent, rent-a-cell and enterprise risk captives.

ROI-Focused

We view each captive as an investment and focus on turning your premium dollars into a manageable investment. How? By providing unparalleled risk management, safety and strategic claims solutions. Our safety and claims professionals work together to provide your investment in the alternative risk financing and captive space with the largest possible return.
