

Using Carrier, Broker, and TPA Resources to Drive Down WC Costs

Kevin O'Sadnick, CSP
Senior Risk Control Manager
Safety National

IRMI Construction Risk Conference | November 12–15, 2023 | Orlando, FL | #IRMI2023

Objectives

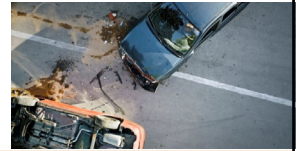

- Become aware of services provided by your insurance partners and how to use them.
- Determine how loss runs can be used to focus on exposures and reduce hazards
- Learn some of the new innovations and programs aimed at driving down losses.

IRMI Construction Risk Conference | November 12–15, 2023 | Orlando, FL | #IRMI2023

Loss Facts

- There were 5,190 work related fatalities in the US in 2021.
 - 8.9% increase from 4,767 in 2020.
- Transportation accidents remained the most frequent type of fatal event with 1,982 fatalities in 2021 (38% of all work-related fatalities).
- In 2021, the industry with the most preventable fatal injuries was construction, followed by transportation and warehousing

IRMI Construction Risk Conference | November 12–15, 2023 | Orlando, FL | #IRMI2023

Carrier Tools and Resources

- **Complementary Resources**
 - LMS
 - Program/policy templates
- **Specialized Service**
 - Ergonomics
 - Industrial Hygiene (noise/air quality)
- **Onsite Training or Training Resources**
- **Vendor/Service Partner alliances**

IRMI Construction Risk Conference | November 12–15, 2023 | Orlando, FL | #IRMI2023

Web-Based Tools

- Learning Management Systems

IRMI Construction Risk Conference | November 12–15, 2023 | Orlando, FL | #IRMI2023

What is a TPA?

- **Third Party Administrator** - Third-party administrators process insurance claims or certain aspects of employee benefit plans for a separate entity – Wikipedia
- Unbundled Claims Department

IRMI Construction Risk Conference | November 12–15, 2023 | Orlando, FL | #IRMI2023

TPA & Carrier Claims Departments

- Claims “Gate Keepers”
- Help slice and dice claim information
- Able to help with loss calculations (experience modifiers, loss percentages, etc.)
- Some large TPAs have analytic capabilities to allow loss comparisons against industry peers

IRMI Construction Risk Conference | November 12–15, 2023 | Orlando, FL | #IRMI2023

Loss Runs

- Loss value – Incurred and reserved loss values
- Indemnity & Med Costs – Cost to cover lost wages and living expenses of the injured vs. cost for doctor & medical services
- Loss Description – Overview of the loss scenario and outcome
- Claim Status – Open and Closed (Re-Opened)

IRMI Construction Risk Conference | November 12–15, 2023 | Orlando, FL | #IRMI2023

Loss Runs and Loss Info

- Determine what loss info fits your wants/needs
- **Lag time** – Length of time to report a claim
- **Body Part** – Specific body part that was injured
- **Job type** – Job location, job title, workstation, etc.
- **Location** – City, state, job site where the loss occurred

Training/Remote Capabilities

- **Blended Learning** - Method of teaching that integrates technology and digital media with traditional instructor-led classroom activities
- **Micro learning** - Breaking down typical training topics into short, bite-sized modules.

IRMI Construction Risk Conference | November 12–15, 2023 | Orlando, FL | #IRMI2023

Training/Remote Capabilities

- **Remote and Virtual Training** – Training completed when the student(s) and instructor are in different locations (web meetings)
- **Virtual Reality** - The digital simulation of lifelike scenarios for training purposes

IRMI Construction Risk Conference | November 12–15, 2023 | Orlando, FL | #IRMI2023

Types of Wearable Technology

IMU (Inertial Measurement Unit) Sensors

- Strong focus on manual material handling
- Machine learning algorithms (data)
- Haptic feedback (posture monitoring)

IRMI Construction Risk Conference | November 12–15, 2023 | Orlando, FL | #IRMI2023

Types of Wearable Technology

Physiological Sensors/Biosensors

- Industrial hygiene sampling (noise, etc.)
- Detects either extreme cold or hot conditions and starts a timer for the employee (break)
- Slip and fall detection (alarm)
- Lone workers (two-way communication)
- Wellness (steps/movement metrics)

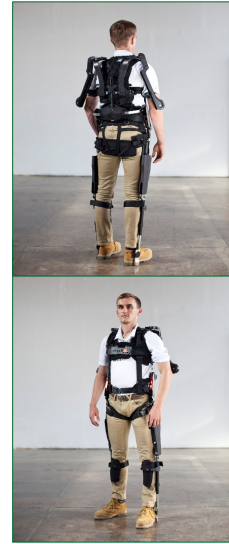

IRMI Construction Risk Conference | November 12–15, 2023 | Orlando, FL | #IRMI2023

Types of Wearable Technology

Exoskeletons (Exosuits)

- Power (hydraulic) vs. Passive (springs)
- Body part(s) supported: Upper extremities
- Challenges: discomfort/transfers stress

IRMI Construction Risk Conference | November 12–15, 2023 | Orlando, FL | #IRMI2023

Wearable Technology Pros and Cons

Wearable technology has the potential to:

- Drive rapid data results
- Generate detailed, specific data to help build a business case:
 - Return on investment (ROI)
 - Identifying critical patterns and trends (departments or areas)
- Create a promising job risk analysis, evaluation, or assessment
- Enhance employee wellness programs

IRMI Construction Risk Conference | November 12–15, 2023 | Orlando, FL | #IRMI2023

Wearable Technology Pros and Cons

Wearable technology could lead to:

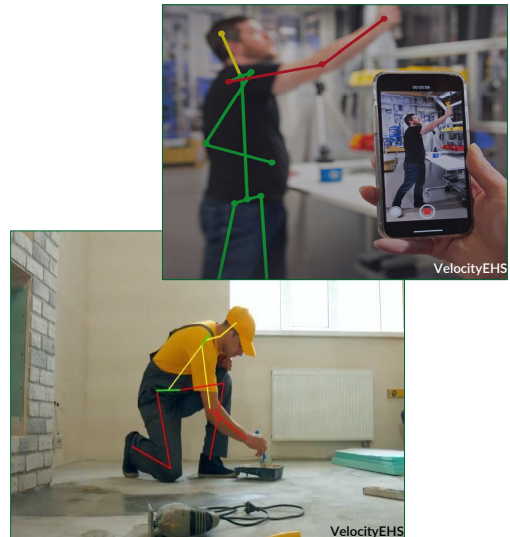

- Employee distractions (e.g., Haptic feedback)
- Adverse reactions
 - Comfort/Fit
 - Range of motion
- Data security and privacy breach
- Negative safety culture
 - Blame employees vs. coaching
- Financial and time management commitments

IRMI Construction Risk Conference | November 12–15, 2023 | Orlando, FL | #IRMI2023

Ergonomic Apps

- Easy-to-use ergonomic applications
- Manual material handling exposures
- Ergonomic methods and tools
- Alternative and a cost-effective approach
- Beneficial for safety and ergonomic committees
- Highly validated and researched-based methods and tools

IRMI Construction Risk Conference | November 12–15, 2023 | Orlando, FL | #IRMI2023

Miscellaneous Safety Trends

- App based resources
 - Inspections (productivity & safety)
 - Accidents
 - Concerns
- Analytics
- Resilience Training
- Cross-training employees
