EPIC NORTHEAST CONSTRUCTION & SURETY PRACTICE

EPIC NORTHEAST CONSTRUCTION & SURETY PRACTICE

EPIC maintains one of the largest Construction Practices in the nation; regionally our team is focused on meeting the unique needs of those operating in the Metro New York construction marketplace and beyond.

With hundreds of construction industry clients in our region - including 150 plus large scale contractors, project owners and developers serviced by our Construction Practice - we have the dedicated professionals, the products and the processes to help improve your risk profile, control your claims and keep your insurance costs in check.

OUR NORTHEAST CONSTRUCTION PRACTICE CLIENT PROFILE

Size

Accounts in our Northeast Construction & Surety Practice have annual practice policy insurance premiums ranging from \$400,000 to \$5,000,000+

Insurance Programs

With our full suite of property & casualty construction risk brokerage capabilities we create programs including guaranteed cost, loss sensitive, captives and alternative risk finance options

Area of Operations

Clients within our Northeast Practice operate nationally and internationally with the overwhelming majority having some level of Metro New York exposure

Classes of Business Represented

Project Owners and Developers

General Contractors (Commercial and Residential)

Civil/Heavy Trades (Street & Road, Demolition, Structural)

Trades/Artisan Contractors (Electrical, Plumbing, HVAC, Concrete, Architectural/Woodworking, Building Maintenance, Flooring, Tile, Masonry, Restoration)

DESIGNED BY AND FOR CONSTRUCTION INDUSTRY PROFESSIONALS

Construction Focused Team

Our dedicated Account Managers have a maximum of 25 clients each and are backed by a team that includes a Construction Practice Manager, embedded marketing team, dedicated support staff, risk control and access to our in house Construction Attorney

Real Industry Experience

With construction Account Managers averaging 15 years of industry experience, our team understands your business and challenges unique to our region

Contractor Specific Coverage

We complement traditional property & casualty coverages with surety bonds, project specific, wrap-ups, builders risk, inland marine and owners and contractors protective liability as well as loss sensitive, multiyear and captive programs

Metro New York Construction Expertise

We understand the unique challenges of contractors operating in our region and are well equipped to navigate issues related to governmental agencies, building and project owners, general contractors and other stakeholders

PROVEN STRATEGIES THAT REDUCE RISK AND COST IN THE CONSTRUCTION INDUSTRY

Consultative Coverage Analysis

Our comprehensive coverage analysis identifies potential coverage gaps and our cost effective construction insurance solutions are designed to meet the needs and risks of your business

Risk Transfer Expertise

From analyzing your contracts and agreements with subcontractors, project owners, general contractors and others, to reviewing their insurance programs, we ensure they're properly insured and transfer the risk where it belongs

Risk Control Strategies

Our knowledgeable specialists review your health and safety programs, risk management controls and safe work practices to reduce your future losses through past loss analytics, safety and risk control program development and implementation, ongoing claims advocacy and additional services as needed

Proven Annual Renewal Process

In our large account annual renewal protocol, your embedded team of seasoned construction marketers schedule internal and external pre-renewal meetings with key stakeholders to effectively position your account to our long standing partner carriers. Throughout this process there are clearly defined measurables to ensure maximum accountability at all levels which ultimately leads to the best possible outcome for our clients

A CONSTRUCTION TEAM THAT WORKS AS HARD AS YOU DO

Strong Carrier Relationships

One of the nation's top insurance brokers – and one of the largest specializing in construction – we leverage our size, strength and long standing relationships to ensure you receive the best coverage, while also controlling the total cost of risk

Dedicated Certificate Process

Staffed weekdays from 6am to 6pm, after hours and on weekends for critical requests, this dedicated team handles over 250,000 requests ever year and can deliver “rush” requests within 30 minutes

Proactive Claims Management

Your dedicated construction Claims Advocate also proactively reviews your claims and outstanding issues with a focus on properly reducing reserves, Workers Compensation experience modification rating and overall loss picture

Surety Expertise

Whether you require a single bond or a robust surety bonding program, you can count on us for a customized solution to meet your specific requirements. EPIC maintains an outstanding relationship in the marketplace and strong relationships with the industry's most respected surety bond companies so you get the support you need, when you need it

NORTHEAST SURETY CAPABILITIES

With a national surety presence and a regionally focused team our Northeast Surety Practice has a passion for protecting our client's interest to make surety easy and effective with services that include:

Evaluation of your operational and financial profile, bond requirements and workflow

Aggressive negotiation with pre-determined market(s)

Feedback on existing program and market dynamics

Replacing letters of credits with bonds

Clear program terms and market expectations

Program design, placement and relationship management

Bond issuance including efficient delivery of bonds and related documents

Bond Types Placed & Serviced

Bid Bonds; Performance Bonds; Payment Bonds; Court Bonds; Site Improvements/Subdivision; Miscellaneous (Street Obstructions, Contractor License & Permit, etc.)

CREATIVE PROJECT SOLUTIONS

Through a comprehensive risk assessment, we will work with you to uncover opportunities to enhance your coverage, more aggressively manage and monitor contractual risk, improve program design and reduce rates on all lines of coverage

For contractors and developers of all types – whether the focus is on building residential, commercial, mixed-use, civil and/or industrial projects – this often means crafting creative and thoughtful project solutions including but not limited to:

Contractor Controlled Insurance Programs (CCIPs) – project specific & rolling

Owner Controlled Insurance Programs (OCIPs) – project specific & rolling

Project Specific Owners Interest

Project Specific Owner / General Contactor Combined Program

Builders Risk

CAPABILITIES WELL BEYOND THE NORTHEAST

As a national broker we have the ability to bring to bear the resources from our construction partners across the EPIC platform

National Construction Practice

Clients can expect a focus on specialty contractors with unique risk profiles including construction managers, design-builders, large general contractors, trade contractors, environmental remediation and construction subsidiaries of design professional, developer and manufacturing entities

Environmental

EPIC's Environmental Service Firm Practice provides industry leading risk management and insurance brokering services to firms specializing in environmental engineering, consulting and contracting

Marine Construction

Our Marine Practice brings together a team of highly experienced, multi-disciplined professionals to provide customized solutions and service to clients including those with a marine construction exposure

National Energy Construction

Our national team that focuses on energy construction consists of risk management and property & casualty insurance professionals who specialize in energy and construction related risks with an emphasis on pipeline contractors

Architects & Engineers

Our practice is dedicated to providing architects, engineers, contractors, environmental service firms and law firms with the professional and consultative approach they require to mitigate and minimize their risk

RISK CONTROL & ENGINEERING SERVICES

EPIC's engineers gain familiarity with our client's integrated operations through site visits, identifying risk exposures and developing action plans to mitigate them.

- Review casualty and property loss control reports, recommendations, and other correspondence from insurance companies
- Perform detailed site surveys to identify activities and operations most responsible for employee injury through review of safety program and policies, observations of day-to-day operations and other indicators
- Perform Industrial Hygiene surveys including air sampling, noise evaluation and other procedures that require technical equipment
- Analyze natural catastrophe exposure and preparedness assistance, including business interruption and disaster planning
- Assess ergonomics in office and industrial workplaces
- Review new construction and/or fire protection system plans

MARKETING STRATEGY

Peer Review: Weekly Marketing Meeting with Senior EPIC Staff

- Discuss industry trends and changes in the markets
- Determine marketing strategy on accounts, 120 days before renewal

Coordination with the Client on Marketing Strategy

- Exposure Collection and Analysis
- Interviews/on-site control surveys by the carrier
- Review of marketing results and recommendations

Focus Marketing: Differentiation of Your Account from “The Pack”

- Senior marketing personnel on staff to support Account Executives on difficult-to-place risks

Quarterly Meetings with Insurance Companies and Executives

- Monitor industry trends and market appetite
