If you become aware that CRB Group, Inc. is facing a claim or circumstance (potential Claim) arising from or in any way related to the business risks covered under the above referenced policies, your firm has an obligation to report the matter to the respective insurer(s) on a timely basis.

While the timing of when we report Claims or circumstances is always important, we must report all known matters to our insurers before the policy renews on 04/01/2023. Failure to report a Claim or circumstance on a timely basis could result in coverage disputes with insurers.

For specific details, please refer to conditions and definitions listed on the policies.

- Loss Ratio Analysis (See separate exhibit)

In the event of a claim emergency after normal business hours, please call the Greyling 24 hour claim reporting hotline at (770) 552-4245.

Renewal Strategies

Factors to Consider

- Length and quality of the insurer relationship
- Satisfaction with insurer services
- Number of years since last marketing (option 3 below)
- Need for program changes not suitable to current insurer
- Changes in staff, financial condition, or underwriting appetite of insurer
- Loss history (ten years)
- Notable changes in exposure (new services, acquisitions, or revenue changes)
- Status of your risk management efforts
- Insurance marketplace – What is Greyling seeing from other renewals?

Strategy

	Option 1: Incumbent	Option 2: Hybrid	Option 3: Market
Description	Negotiate only with the existing insurer to develop a renewal program	Negotiate early with the existing insurer based on agreed benchmarks; if benchmarks are not met go to option 3	Approach the existing insurer and competing insurers for renewal proposals
Recommended Frequency	Applicable to most renewals if insurance program is competitive and insurer is providing good service.	Should be used as an alternative approach between options 1 and 3 if needed to maintain competition but insured is not likely to change insurers.	Once every three to five years.
