Status/Comment as of 09-13-23 Employee was seen at Stephens Memorial Hospital and then Spectrum Orthopedic. She initially had a return to work date (full duty) of 7/28/23 but did not return after she consulted with a surgeon. Employee was referred to Concentra for work restrictions but failed to do so. Employee has applied for disability and refused light duty return. Carrier has requested additional medical records and is in the process of following up with the employee regarding her treatment and potential for surgery. We recommend maintaining the current reserves until such time as the follow-up and record review have been completed.								
23108286	Alice Groves	Indemnity	28 - Giri Dedham LLC 235 Elm Street, Dedham, MA 02026	06-19-2023	\$175	\$13,325	\$13,500	Employee tripped on the bedframe and fell trying to catch her fall hurting her arm.
Status/Comment as of 09-13-23 This matter involves a compensable hairline fracture of the right elbow. The employee returned to work on 7/3/23 without any restrictions. At his juncture, the carrier is finalizing the remaining medical bills and we anticipate that this will be closed by the end of the month.								
23102736	Noel Amos	Indemnity	80 - Giri Hotel Management LLC 74 Main St, Ogunquit, ME 039073601	02-22-2023	\$2,695	\$2,091	\$4,786	Employee was walking in parking lot once he arrived, and he slipped and fell on a patch of ice, injuring left side and rib.
Status/Comment as of 09-13-23 Employee was diagnosed with a contusion of the left front wall of the thorax. In addition to the contusion, employee is alleging to have sustained a torn meniscus, requiring surgery. Carrier is awaiting additional medical records and will review to determine if the knee is related to the fall or pre-existing. We recommend maintaining the current reserves pending the review of additional medical records.

Status/Comment as of 09-13-23 No lost time was noted and the adjuster is simply waiting for any medical bills to pay and close. Several attempts have been made to reach the employee, with no response. Suggest that carrier perhaps place a nominal reserve, \$1,250, to recognize payment of bill(s) prior to closing.

<u>Status/Comment as of 09-13-23</u> This matter is no longer a medical only. The employee is a bartender who is noted to have been taking the trash into kitchen at the end of her shift. There were plastic totes stacked on either side of the doorway to the kitchen which fell when she opened the door. The totes struck the employee on the head and further caused to her to fall to the ground. The employee was immediately treated in the ER and has been referred to a sport medicine concussion specialist for further treatment and evaluation. Carrier is awaiting the results of concussion specialist's analysis and will evaluate reserves further following same.

904187N	Deborah Lieberman	Premises/Operations Liability	ME	06-23-2023	\$0	\$7,888	\$7,888	Guest was walking when she did not notice ditch, which resulted in her tripping and falling.
Status/Comment as of 09-13-23 The claimant is noted to have sustained a severe ankle sprain, and is allegedly continuing to receive treatment. An investigator has been assigned review the area and determine the potential for liability. We are waiting for the completion of the investigator's report. Med Pay has been offered but to date, no medical records have been received. At this juncture, we concur with the current reserve and suggest that same be re-evaluated with the verification of the alleged injuries, completion of the liability investigation and any demands.								
898637N	Diane Nettleton	Premises/Operations Liability	NH	04-28-2023	\$0	\$12,888	\$12,888	Claimant tripped and fell while walking her dog.
Status/Comment as of 09-13-23 The claimant is currently represented by counsel, but no lawsuit has been filed. Claimant is alleging to have sustained a fractured wrist, although no medical records have been provided. A liability investigation is currently being completed and it appears that the fall may have occurred on a portion of the property that is an easement for the city. Regardless, it is likely that absent some specific language to the contrary or gross negligence on the part of the city, the insured is responsible for maintaining the area. Given the questionable liability, we recommend maintaining the current indemnity reserve.								
898247N	Bruce Murkoff	Premises/Operations Liability	ME	04-26-2023	\$356	\$5,776	\$6,132	Trip and fall over defective carpet in room.
Status/Comment as of 09-13-23 This matter presents potential liability. Investigation reveals that the carpet in the claimant's room had become unglued from the baseboard. As the claimant exited his bed, he allegedly tripped over the defective carpeting and sustained a fractured nose. No medical records have been received, to date, inasmuch as the claimant has not agreed to sign a medical records authorization. Hence, we are at a stalemate. Suggest that the carrier maintain the current reserves until such time as the records are received and a causal relationship to the fall and the alleged injuries is confirmed.

891671N	Multiple	Premises/Operations Liability	ME	03-03-2023	\$0	\$7,888	\$7,888	Multiple minor children allege to have become ill as the result of swimming pool.
Status/Comment as of 09-13-23 This matter involves an attorney demand. The attorney has been non-responsive to several information requests from the carrier since the initial notice. The carrier has requested confirmation of how many children were affected and how many are being represented by this counsel. No medical records have been provided and no demands have been made. The pool was drained following the notification of the alleged incidents and no environmental testing was done on the water. We recommend sitting tight on this one and maintaining the current reserves. There has been no indication that a suit is forthcoming.								
886049N	Maria Luz Rodrigues Flores	Premises/Operations Liability	NH	02-04-2023	\$1,760	\$11,083	\$12,844	Guest slipped and fell in shower, striking her head.
Status/Comment as of 09-13-23 The carrier has investigated and denied liability to the claimant. Claimant is not represented by counsel, however, she indicated that she was on a business trip and has pursued through worker's compensation. The claimant alleges to have sustained a concussion and bruise to the back of her head. Given the potential for worker's comp. subrogation, we concur with the carrier's decision to leave the matter open. We suggest however, that the indemnity reserve be reduced to -0- given the lack of representation and/or any further contact from the claimant or her workers comp. carrier.								
883051N	Seamus Flanagan	Premises/Operations Liability	NH	01-03-2023	\$0	\$6,250	\$6,250	Guest alleges to have been bitten by bed bugs in room, while staying overnight.
Status/Comment as of 09-13-23 Letter of representation has been received on this matter, but to date, no suit has been filed. Since the claim was made, there has been no further contact with/from the claimant's counsel. Loss occurred in NH and the statute of limitations will expire on 1/3/26. Carrier may wish to consider a reserve reduction if nothing further is received within the next three (3) months.

Status/Comment as of 09-13-23 This claim has settled for \$13,000. Investigation, medical record and photo reviews indicate that the wound was far more serious than originally thought. This was a good settlement in light of the injury and scarring.								
857928N	Robert Penler	Premises/Operations Liability	MA	06-08-2022	\$803	\$19,078	\$19,881	Alleged slip and fall due lack of lighting.
Status/Comment as of 09-13-23 The claimant is currently represented by counsel, but no suit has been filed. It is noted that the lights in the hotel went out at @5am. Emergency lights were found to be operational. Claimant alleges to have slipped and fallen due to lack of light, although no report of injury was filed at the time. The carrier denied liability, last year, and to date, no further correspondence has been received from claimant's counsel. The claimant alleges soft tissue injuries to the shoulder and elbow. No medical records have been provided to date and we are dealing with a 3 year statute of limitations from the date of the loss. There is a \$10K Med Pay reserve and we recommend that the carrier consider reducing same to zero -0- as there is no indication that the claimant is seeking payment for his medical bill(s).

Status/Comment as of 09-13-23 The carrier has investigated and denied liability to the claimant's counsel. The exact nature of the injuries has yet to be determined but appear to be soft-tissue. No suit has been filed and there has been no contact from the claimant's counsel since the denial of liability. We recommend maintaining this as is. Statute of limitations will expire on 4/15/25.

Status/Comment as of 09-13-23 Plaintiff is alleging to have sustained a head injury/concussion due to the fall. To date, the plaintiff has not been deposed but same is scheduled for next month. Investigation indicates that there was no water on the floor in the plaintiff's room and no leak in the toilet, as alleged. Medical records have been received and reviewed, indicating that the plaintiff had been suffering from "foggiess" prior to the alleged fall. Current strategy is to move for summary judgment following the plaintiff's deposition. We concur with the current strategy and reserve.

Status/Comment as of 09-13-23 This claim has settled. The claimant is noted to sustained a fx foot. The indemnity settlement was for \$33,000 (liability) and \$5,000 was paid in med pay. Liability was questionable but given the confirmed fracture and anticipated costs of potential litigation, this was a prudent resolve.								
FTH1081	James Mullarkey	Premises/Operations Liability	MA	07-03-2021	\$948	\$2,552	\$3,500	James Mullarkey alleges he was attacked by the front desk manager.
Status/Comment as of 09-13-23 This matter involves an alleged assault by the insured's employee on a guest. Liability investigation and police report confirm that the insured's employee assaulted the claimant and this matter presents unfavorable liability. Recent medical records indicate that the claimant sustained a fracture of the right radial head (elbow) in addition to a knee injury. Given the extent of the claimant's injuries and the fact that he is currently represented by counsel, we anticipate that a reserve increase will be forthcoming once all of the claimant's medical records have been received. We recommend a settlement in this matter, prior to litigation.

Description of Loss

The employee climbed on the dumpster to throw trash in, slipped, and fell and held onto the fence next to it. Employee sustained injury to left shoulder.

Current Status/Plan of Action

The claimant is alleging a left shoulder fracture after slipping and falling when taking out the trash. The claim was submitted via form 110. There was one medical note attached to the formal claim with a date of service which was 11/3/2022. The claimant was deemed to be TTD and diagnosed with a left shoulder dislocation. The claim has been denied in full as the claimant is not an employee of Giri Management. She was hired through a temp agency. The claimant is represented by counsel who continues to seek indemnity and medical. The carrier is maintaining their denial and has again advised the claimant's attorney to report the claim to the Temp Agency.

Description of Loss

Employee was trying to fix a leak in the hydraulic hose system and when he was removing the insulation from the hose the small leak under pressure punches two holes in his right index finger and forced hydraulic oil into his hand.

Current Status/Plan of Action

The claimant is an eighty five (85) year old mechanic who has been a mechanic for sixty six (66) years. He was repairing a hydraulic hose when the pressure released and caused two puncture wounds to his right index finger. The hydraulic fluid got into the wound and caused an infection. He is using a heated glove which seems to be helpful. The doctor recommends that he continue to use the heated glove and continue with the exercises he was given in therapy. The doctor does not feel that he will continue to improve very much in the terms of the lack of sensation which is making it difficult for more dexterous functions such as screwing nuts/bolts, etc. He continues with a light duty capacity of working 3 days/week; no lifting/gripping/pushing/pulling/grasping/pinching or other weight bearing with the right hand over 20 pounds. The claimant continues to follow-up with MMP Ortho. Carrier advises that the claim is being postured for closure by year end.

Description of Loss

Employee was cleaning a room and saw trash behind the dresser. When attempting to move the dresser forward to get the item she injured her right shoulder.

Current Status/Plan of Action

The claim was accepted for the right shoulder. The claimant had an MRI completed which showed a tear of the right rotator cuff. She had surgery on October 11, 2022. She is treating with physical therapy. The carrier will obtain MMI one year post-op (10/2023) and determine permanent partial disability (PPD) rating. The claimant returned to work part time, light duty on January 6, 2023. She is also receiving temporary partial disability (TPD) benefits. Claimant continues to work on limited duty(8hrs. per week) and the carrier has this matter set for a November 2023 review to secure the occ med work status. Reserves are adequate at this time but we will push to have the medical reserve reduced following the November review.

Description of Loss

Employee asked for training assistance, co-worker came over to help and when employee moved to make room she tripped over the computer router wire. She caught herself but went to the floor on her right knee also injuring her back.

Current Status/Plan of Action

The carrier settled the case back in April 2022 via lump sum settlement (LSS) for \$12,000. However, claimant continues treatment for various body parts and those treatments have been denied. Claim remains open for medical treatment but the requests continue to be denied. Claimant is represented by counsel and there is a Conciliation Conference set for September 15, 2023. Hopefully at that time, the reserves can be reduced and the claim closed.

Description of Loss

Lor attached alleging slip and fall.

Current Status/Plan of Action

The claimant is represented by counsel, but no suit has been filed. The facts surrounding the alleged fall are unclear. Claimant alleges to have slipped in urine, while exiting her room. The injuries being alleged are severe, including a fractured tibia and kneecap, with multiple subsequent surgeries. additionally, the claimant alleges to have suffered from compartment syndrome in the affected leg. Surgery was required to release the pressure from the compartment syndrome. To date, claimant's counsel has been non-responsive. No demands have been made and multiple requests for medical records, including the ER report have not received a response. Liability remains questionable, as investigation of the door and room, along with the surrounding area, revealed no defects or hazards. SIU was engaged by the carrier who determined that the claimant received medical treatment at a nearby hotel, but again, no medical records have been provided to support same. Although the alleged injuries are severe, there has been no medical record submission to back-up the alleged injuries and liability is highly questionable. We recommend that the carrier consider a reduction in the reserve at this time.

Description of Loss

This matter involves an alleged slip and fall. The claimant is represented by counsel and no suit has been filed. The claimant alleges to have slipped and fallen while at Meadowmere Resort, specifically as the result of ice near the jacuzzi. No incident report was noted/filed at the time. The claimant is alleging to have sustained ruptures to both quadriceps, requiring surgery and physical therapy for each.

Current Status/Plan of Action

The injuries alleged are significant, but to date, multiple requests to substantiate same with medical records/authorizations have gone un-responded from claimant's counsel. additionally, liability remains questionable given the lack of any witnesses and/or direct statements from the claimant. In light of the repeated failure to respond to medical records requests and absent any known witnesses to the alleged fall, we recommend maintaining the current reserves but re-evaluating same if and when the records are received.

Alleged exposure to carbon monoxide.

Current Status/Plan of Action

The claimant is represented by counsel, along with 2 other claimants. No suit has been filed. It is alleged that the claimant sustained bodily injuries due to exposure to carbon monoxide while at the Comfort Inn in Freeport, Maine. The carrier is actively negotiating with the claimant's counsel and we anticipate resolve prior to the end of the year. We recommend maintaining the current reserves.

Description of Loss

This matter involves a lawsuit which was dismissed via summary judgment. The plaintiffs allege to have wrongfully removed and arrested from the Fairfield Inn as the result of their running a business out of their room.

Current Status/Plan of Action

The plaintiffs formally appealed the dismissal in October of 2022. We are currently waiting for the plaintiff's to file their initial brief, with a rationale for their appeal. We recommend maintaining the current reserves as the appeal appears weak and unlikely to be overturned.
