YOUR DEDICATED RISK SERVICES COORDINATOR IS: XXXXXXXX

The Northeast Risk Solutions Group consists of 40 seasoned team members with prior carrier, brokerage, TPA, and private industry experience in claims, analytics, and risk control. Our service model provides

- **Proactive Claims Advocacy** - We focus on simplifying all facets of the claims process so you can focus on managing your business. Should you have a claim, we work to secure the best result given the situation at hand –whether that means securing a quick settlement or taking a more defensive position.
- **Reduce Recurring Claims** - But we don't just look to resolve your claim; we help to ensure your employees and company learn from it. Through an in-depth root cause analysis, you'll get a clearer picture of why the claim occurred and what procedures or processes could be put in place to prevent recurring ones.
- **Informed Recommendations** - Extensive data analysis drives our recommendations to you. We analyze your losses inside and out, looking at claim type, frequency and severity –as well as factors such as claim by occupation, time of day and seasonality –and benchmark your claims against others in your industry.

Our approach to servicing our clients is strategic, supportive, and consultative. As an extension of your company, your dedicated team will work collaboratively with you and your in-house team to create and implement a customized plan that may include coordinating with your carrier, health and safety programs, trainings as well as site inspections and safety audits.
